

# Coast & Valley Swimming Association Inc.

## Forum

**Sunday, 18 August, 2019**

### **Edgeworth Sport and Recreation Club**

The Forum was opened by Norm Roberts at 12.10 pm who welcomed all to the Forum.

#### **1. Championship entry fees – Norm Roberts**

Swim Central does not allow the \$10 meet fee to be added to a swimmer's entry fee; i.e it adds the \$10 fee onto every entry.

It is proposed that the entry fee be raised to \$9.

Members present agreed that this recommendation be taken to the Management Committee for approval.

#### **2. Golf Day – Phil Hawke**

CVSA is holding a golf fundraiser on Sunday 10 November. This day is organised to raise money to assist in the funding of our Development programs over the next 12 months.

This is a fun day and gives everyone a chance to come together away from the pool scene.

One team per club would raise significant funds and we encourage clubs to put in a team.

Lunch will be provided and swimmers as well as parents are welcome to attend

#### **3. Swim Central – Greta Brodie (Swimming NSW)**

- Junior state entries are available on ClubLane. Noted that swimmers can access ClubLane, however, there is no longer access for clubs.
- Meet Fee/Relay entry: Swimming NSW has no control over the release of updated functionality. Updates are released by Swimming Australia and its provider.
- Swim Central support guides are available on the Swimming NSW website <https://nsw.swimming.org.au/clubs/running-your-club/help>
- Swimming NSW News Stories will contains tips on Swim Central
- Meets”
  - Setup –  
**Membership requirements** – if this is not done, anyone including non-swimmers can enter your meet

**Relationship requirements** - this setting determines which clubs can enter your meet

**Meet Association Process** – Direct embeddable links will be available as a future update

**Unattached Meet Results** – Unmatched results athlete report will show athletes whose results have not be uploaded. Data can be uploaded again when the corrections have been done.

**NEW: Approval and Results Verification Process**

Entity above can approve and verify results – i.e Club files can be approved by CVSA, CVSA Championship results will be approved by SNSW.

**Entering meets for Members**

Find the meet in the Calendar. Swim Central allows entries to be made for more than one swimmer and only one payment to cover all swimmers needs to be made.

**Registration**

Tutorial video and support guides will be available to assist Registrars.

Clubs are to wait for SNSW information before setting up their registration fees. Additional steps for State and National level to be added.

New Feature: Automatic refunds for membership are available. It is recommended that the toggle switch “Allow refunds” is switched on when setting up. This will allow a member to request a refund – club and state can approve refund from each level.

Active Kids process: This will be a future update, however, release date is still to be confirmed. A comprehensive support guide will be available.

A new product for registrations for each year will need to be set up

Accreditations are being done manually by Josh Karp. Swim Central may be able to bring these across.

Missing Members: If members have a \$0 value Swim Central did not pick them up on the transition process, as Swim Central works on transaction history.

Norm Roberts thanked Greta for her presentation and Registrars should have a better understanding of the system.

Norm also thanked all for attending the Forum and wished all a safe travel home
